

SIYANG JIANG

Phone : (+86) 188-1091-5927, Email: syjiang@arbor.ee.ntu.edu.tw

Personal Website: www.syjiang.com

RESEARCH INTEREST

My research interest is related to *Internet Engineering and Networked Applications*, especially in distributed machine learning / federated learning system and AIoT.

EDUCATION

National Taiwan University, Graduate Institute of Electrical Engineering, Taipei, Taiwan
M.S. Computer Science Group, 09/2019-06/2021

Overall GPA: 4.24/4.3; Advisor: [Ming-Syan Chen](#)

Coursework: Computer Vision from Geometry, Deep Learning for Computer Vision, Matrix Computing

Shaanxi Normal University, School of Mathematics and Information Science, Xi'an, China
B.S. Information and Computing Science, 08/2015-06/2019

Overall GPA: 3.74/5.0; Avg. Scores: 89.0/100; Rank: 4/41

Coursework: Calculus, Advanced Algebra, Modern algebra, Real Analysis, Machine Learning

National Taiwan Normal University, Department of Mathematics, Taipei, Taiwan
Exchange Student 02/2018-07/2018

PATENT

Patent for Invention	Under Review	2021-present
<ul style="list-style-type: none">• <i>Library Journal Citation Reports Management System</i> Management the Journal/Conference Citation information and produce reports with machine learning algorithms to Library in Universities.		
Computer Software Copyright of China	Certification ID: 2018SR134747	2018
<ul style="list-style-type: none">• <i>Big data intelligent collection and statistical analysis management system</i> Used to collect and analyze large-capacity data which is difficult to capture, manage, and analyze.		

SELECTED COMPETITIONS

Kaggle Completion: Sartorius - Cell Instance Segmentation	10/2021 - 12/2021
<ul style="list-style-type: none">• Current Ranking: 58/1500+ (Top 4%), Sliver Medal.• Neurological disorders, including neurodegenerative diseases such as Alzheimer's and brain tumors, are a leading cause of death and disability across the globe. However, to segment individual neuronal sartorius cells in microscopic images can be challenging and time-intensive. We will release our solution when the competition finished.	
Medical Imaging [Project]	12/2020 - 01/2021
<ul style="list-style-type: none">• Ranking: Bronze Medal• Cerebral hemorrhage, bleeding that occurs inside the brains, is a serious health problem requiring rapid and often intensive medical treatment. Besides, looking for the presence, location and type of hemorrhage is complicated and often time consuming. We use two stages CNN-LSTM to solve cerebral hemorrhage image classification problem. In addition, we also use self-supervised learning in small dataset to improve the performance via explore inherent structure information in unseen domain.	
Kaggle Completion: Cassava Leaf Disease Classification [Github]	12/2020 - 02/2021
<ul style="list-style-type: none">• Ranking: Top 7%, Bronze Medal• A EfficientNet-based network was used to solve leaf disease classification problem in a truly dataset with 21,367 labeled images. Ensemble method, data augmentation method and kinds of loss were implemented to improve the classification accuracy.	
Big Number Factorization [Project]	02/2018 - 08/2018
<ul style="list-style-type: none">• Ranking: Top 1%, Sliver Medal• Used several algorithms such as Pollard rho algorithm, Pollard $p-1$ algorithm, etc., to factor a 432 in decimal big number. Those algorithms are implemented using Python, Matlab, and C++.	

SELECTED HONOR

• National Cryptography Mathematics Challenge	Sliver Prize
• Merit student	Four Consecutive Years
• First Class Excellent Scholarship	Four Consecutive Years
• "KaiLiXin Materials" Scholarship	(1/228)
• National College Student Business Plan Competition in 2016	Bronze Award

INTERN AND EXTRACURRICULAR ACTIVITY

Digital China Information Service Company (Xi'an)

09-11/2018

- Excellent Intern Student
- Building a bank business system, which was stable in our test, with basic CRUD features within for bank business.

Big data and AI Summer Camp

07-08/2018

- Teaching Assistant
- Assist the professor from Shanghai Jiao Tong University for dealing with the Spark and Hadoop problems for the students in the camp.

SKILLS

Programing Tools	Python, Matlab, C/C++, R, Vivado HLS, HTML, Php, L ^A T _E X
Framework	Pytorch
Languages:	English (Fluent), Mandarin (Native)

ACADEMIC SERVICES

PC Member/Reviewer: *ECML-PKDD 22'*, *WACV 22'*.
